Assignee:	Frédéric Barthéléry	% Done:	100%
Category:	User Interface	Estimated time:	3.00 hours
Target version:	Version Forum EIP	Locale:	
Affected version:			
Description			
Changer de status -> Deconnecter. On se deconnecte bien mais derriere on lance l'activite Login qui se reconnecte automatiquement. Si on veut se deconnecter c'est pour stopper Beem... need solution =)

Lors de la reconnection automatique. Si on fait la "fleche retour" pour annuler la connection automatique. Celle ci s'arrete bien en revanche lorsqu'on refait un coup de retour. On se retrouve sur la contact list, il y a segfault quand on refait un retour sur la contactlist...

Quand on appuie sur la fleche de retour on ne fait que fermer la fenetre de progression. il me semble qu'il n'y a rien qui annule la connexion. Je pense qu'il vaut mieux s'attarder sur le truc qui a ete changer et qui fait une reconnection automatique alors qu'avant non.
