Affected version:	0.1.7		**Locale:**	

Description

I am having the problem with presence status on beem client. I'm using **Samsung GT-S536** which is *Android 2.3.6* and **Sony ST25i** which is *Android 2.3.7* . Both phone have same client, on either side, it shows the other users are unavailable but when I use another IM client like PSI or Citron as a third user it shows all users are available.

I am using ejabberd xmpp server.
