Description

I found new version of this app when i'm using previous version. But I cannot update new version at google play store.
It shows error code -24. And I cannot install other versions too.

What steps will reproduce the problem?
1.
2.
3.

What is the expected output? What do you see instead?

What version of Beem are you using? On what Android version? On what device?

Please provide any additional information below.
